Beauty Line*

Beauty Line Exclusive protects you from hazardous gases and particles. It has a very low sound level and is easy to maintain and use.

Beauty Line Exclusive is equipped with a three stage filter, for longer lifetime and for a guaranteed function:

- * Pre filter - for larger particles
- * Particle filter - for small, hazardous particles
- * Gas filter - for odour and gases

Beauty Line is tested by an independent test institute (SP - Technical Research Institute of Sweden) and is the only filter system that meets demands and legislations required by the work environment authorities.
